

## ARTÍCULO

Self-adhesive aluminum sheet

## SCHEME

## CHARACTERISTICS

	Prestaciones
Reaction to fire	M1
Length	5 m
Width	0,4 m
Adhesion force to concrete	$\geq 2$ N/cm
Adhesion strength to metals	$\geq 4$ N/cm
Water vapor permeability	$= 2,5$ g/m <sup>2</sup> / 24 std
Spill resistance	Sellador butílico a 5°C: 0mm
	Sellador butílico a 70°C: $\leq 3$ mm
Corrosion resistance	> 500 h

## DESCRIPTION

Self-adhesive flexible aluminum waterproofing strip with great adaptability to all types of surfaces and geometries. The aluminum is lacquered, which provides greater resistance to UV radiation and against adverse weather conditions. The self-adhesive butyl face allows a good fixation to the surface on which it is placed and at the same time great flexibility to adapt to the movements of the cover. Available in red "roof tile" and black.

## OBSERVATIONS

The installation temperature must be above 5°C and below 40°C and the surface must be clean and free of dust.
